

## Quick Reference Guide to Coding for Breastpumps<sup>1</sup>

---

### Pumps and Supplies\*<sup>i</sup>

E0602	Breast pump, manual, any type
E0603	Breast pump, electric (AC and/or DC), any type
E0604	Breast pump, hospital grade, electric (AC and/or DC), any type
A4281	Tubing for breast pump, replacement
A4282	Adapter for breast pump, replacement
A4283	Cap for breast pump bottle, replacement
A4284	Breast shield and splash protector for use with breast pump, replacement
A4285	Polycarbonate bottle for use with breast pump, replacement
A4286	Locking ring for breast pump, replacement

\*These codes are provided as a listing of codes that have been established to describe the types of breast pumps and supplies that are commonly used. For specific instructions as to how to code for specific products, contact the payer directly. For Medicare claims, coding verification for specific products can be obtained by contacting the organization responsible for code interpretation, the PDAC, at: <https://www.dmepdac.com/dmecsapp/do/search>.

### ICD-9-CM Diagnosis Codes

ICD-9-CM Diagnosis Codes are used to report the reason why a product or service was prescribed for a specific patient. Diagnosis codes are highly specific to the individual patient and should always be selected based upon the specific circumstances of the individual patient as determined by the physician or other appropriate health care professional.

While there are a myriad of reasons why a patient might be prescribed a breast pump, the following codes provided by the American Academy of Pediatrics (AAP) represent some common reasons for breast pump use<sup>ii</sup>. Again, they are provided for illustrative purposes only and no guarantee of coverage or payment is implied.

#### Commonly Used ICD-9-CM Codes

##### **Baby**

##### **Feeding problems**

Feeding problems/ slow feeding, newborn	779.31
Bilious vomiting in newborn	779.32
Other vomiting in newborn	779.33
Feeding problem, infant (> 28 days)	783.3
Vomiting, infant (>28 days)	787.03

##### **Jaundice**

Breastmilk jaundice	774.39
Neonatal jaundice, unspecified	774.6
Preterm jaundice	774.2

##### **Weight and hydration**

Dehydration, neonatal	775.5
Failure to thrive, newborn	779.34
Weight loss	783.21
Underweight	783.22

---

Slow weight gain, FTT, infant (>28 days)	783.41
Abnormal weight gain	783.1
<i>As well as all the diagnoses associated with size and maturity.</i>	
<b>Infant distress</b>	
Fussy infant/baby	780.91
Excessive crying, infant	780.92
Infantile colic or intestinal distress	789.7
<b>GI issues</b>	
Abnormal stools	787.7
Diarrhea	787.91
Change in bowel habits	787.99
<b>Mouth</b>	
Ankyloglossia	750.0
High arched palate	750.26
<b>Other</b>	
Other specified follow-up exam <i>(When the original reason for visit has resolved)</i>	V67.59
<b>Mother</b>	
<b>Breast &amp; Nipple issues</b>	
Abscess, breast / Mastitis, infective	675.14
Blocked milk duct / Mastitis, interstitial	675.24
Breast engorgement, ductal	676.24
Burning pains, hyperesthesia	782.0
Ectopic or axillary breast tissue	757.6
Galactocele	676.84
Other specified nipple/breast anomaly	757.6
Other specified nipple/breast infection	675.84
Nipple infection	675.04
Nipple, cracks or fissures	676.14
Nipple, sore	676.34
Retracted nipple, postpartum	676.04
Impetigo (staph), nipple	684
Candidiasis, nipple or breast	112.89
<b>Constitutional</b>	
Disrupted sleep cycle	780.55
Fatigue	780.79
<b>Lactation</b>	
Agalactia, failure to lactate	676.44
Lactation, delayed	676.84
Lactation, suppressed	676.54
Other specified disorders of lactation	676.84
Supervision of lactation	V24.1
<b>Other</b>	
Other specified follow-up exam	V67.59
